THE SOLUTION

Our in-depth sectorial knowledge and specifically of the main DMS in the market (Quiter, Autoline, Aswin, etc.) has allowed us to develop, in record time and without risk, Business Intelligence and budgetary and financial management projects in the main automotive dealer groups. All this knowledge acquired has been transformed into SAIMA Automotive, a powerful advanced analytics solution that brings great value to a company.

Our clients operate throughout Spain, adding more than 200 automotive dealers and multi brand car repair service centers. Even though the problem is common to all businesses, our solution has allowed us to adapt to the specific needs of each client.
